AWNING OPTIONS

Optional Aki arm shown

KE retractable awnings add value to your home or business in many ways. Get more enjoyment from your outdoor spaces with family and friends or increase revenue at your restaurant or store by adding covered seating capacity and turn unused space into profit. With a wide selection of fabrics and colors to choose from, KE awnings also offer LED lighting options, remote control features and automation with wind, motion and rain sensors. A smart phone app can help you control your awning even when you're not there.

Wall mounted LED illumination available

FACTORY PRE-WIRED LED ARMS

These retractable awning arms include factory-installed, integrated LEDs that provide a sleek, clean appearance and an enjoyable ambiance to enhance outdoor living with dimmable LEDs. Pre-wired LED Arms are available on Qubica Flat, Bella Plus, Domina and Elite Plus awnings.

LED STRIPS & DIMMING OPTIONS

Factory-installed, integrated LEDs make these optional light strips quick and easy to install and add functionality and beauty to KE awnings.

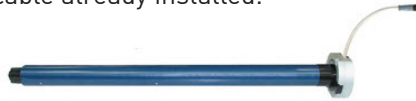

OPTIONAL MOTORS

A variety of override and non-override motors is available to match the power requirements of your awning.

Moon motors include 18' plug-in power cable already installed.

Somfy RTS Sunea Motors come with a quick connect style power cable already installed.

Somfy RTS Altus Motor (non-override) comes with a pigtail style power cable already installed

AUTOMATION SYSTEMS

Adding weather sensors to your retractable awning helps protect your investment and provides peace of mind when you're away from your awning. Wind sensors automatically retract your awning when high winds are detected, preventing damage to the awning.

The Ondeis® WireFree RTS Rain and Sun Sensor is a solar-powered combined rain and sun sensor. Completely wireless, it uses optical rain-sensing technology to measure rainfall and sends a wireless command to close the awning when rainfall exceeds the user-selected threshold. The sun-level sensor measures light intensity and works in a similar fashion.

SOMFY Mylink WIFI

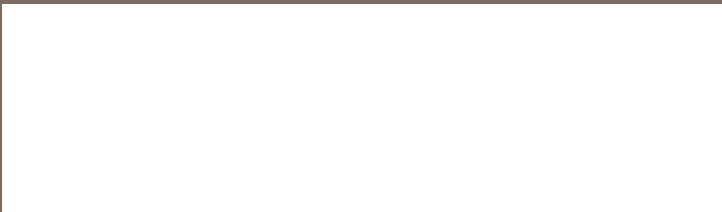

Somfy wire-free motion sensor
