

**The SunCassette Bella**  
*Photo Gallery, Features & Benefits*

**KE DURASOL**  
**AWNINGS®**  
*Your Total Shading Solution*

**The Bella is Durasol's flagship retractable awning...**

*Bella's "Hood & Tray" protective cover provides better protection for your awning fabric.  
Bella's built-in gutter provides better protection for you during use in rain.*

**The Bella's Hood & Tray Fabric Protection Design**

*The Bella features a unique powder coated aluminum hood & tray fabric-protection system. When combined with an automatic torque sensing motor this system protects the awning fabric and motor from rain, snow, ice, dust, dirt, squirrel damage and bird's nests. The "Hood & Tray" design denies bird's access to the torsion bar so they cannot build a nest under the awning's protective cover, as in traditional retractable awning designs. The Bella mounts flush against the wall of your home, for a sleek look when retracted.*

*The Bella front bar features a **built-in raincarrying system** to divert water to the sides of your awning and prevent water showering down across the entire width of the front of your awning. The Bella front bar is slim, yet strong, for a reliable and traditional awning look. This extraordinary awning incorporates a patented tipping system.*

*The **Bella** is a practical yet elegant addition that is designed to last for a lifetime.*

- Maintains a tight seal when retracted providing complete fabric protection

- Bottom cassette tray eliminates the need for center support brackets that damage fabric
- Front bar with a built-in rain gutter to divert water that can create a “waterfall” that splashes water back on you and your guests when the awning is used in light rain.
- Teflon® coated bushings with stainless steel pins keep unit quiet and maintenance free

## SunCassette **Bella** – [Be Prepared to Protect Your Fun Times](#)

*Durasol Awning's Flagship Retractable Awning*  
*The SunCassette® **Bella** Full Protection retractable awning system ...*  
***"Hood & Tray System"** Protects Fabric & Eliminates Bird Nests*  
***"Built-in Gutter"** Protects You...*  
***Protect Your Outdoor Fun... For a Lifetime!***

### The benefits of the Bella Hood & Tray System.

- ☞ Extruded aluminum “Hood & Tray” entirely surrounds your awning fabric to completely protect your expensive fabric from the damaging effects of sun, rain, snow, ice and wildlife when your awning is retracted and not in use.
- ☞ The “Hood & Tray” system prevents access to the square bar and eliminate the haven for bird’s nesting that is a problem for other awning hood designs.

- ⌘ The “Tray” supports the roller tube, allowing the Bella to have widths up to 30’0” WITHOUT the need for center support brackets that damage fabric with abrasion
- ⌘ The “Tray” surrounds and protects the underside of your fabric from wildlife like squirrels and birds trying to use your awning fabric for nesting material over winter.
- ⌘ Tension Sensing Motor: The Hood and Tray design allows us to use the new Tension Sensing Motor Technology. Your awning will fully retract into the protective case - no matter if your awning is wet or dry, hot or cold, new or stretched after years of use.

**Other Benefits of the Bella...**

- ⌘ The Front bar incorporates a Built-In Gutter to divert water from the front of the area protected by your new awning so you will not have a “waterfall” across the front of your awning during summer rains.
- ⌘ This extraordinary awning incorporates a **patented tipping system**, allowing the awning to extend straight out, then tip down to attain up to a 55° pitch. The Bella is a practical yet elegant addition that is designed to protect you and your family for a lifetime.

**Protect Your Outdoor Fun... For a Lifetime!**

The highest wind resistance rating in its class makes the Elite Plus strong enough to protect your good times... For a Lifetime!

- ⌘ Add space and improve your outdoor living with color, style and shade
- ⌘ Retractable Shade Curtain for Better Sun Protection
- ⌘ Adjustable Front Height - Steeper pitch or more headroom whenever you want
- ⌘ Extend your outdoor living with the finest traditional style retractable fabric roof
